**HEALTHCARE  
SOLUTIONS**

*“Hard work and perseverance do pay off, some times you have to mix in a bit of patience with it along the way. Perseverance is key....believe in yourself, what you are doing and continuously evolve as a leader in order to ultimately achieve your ambition and goals.”*

Danielle Lisenbey,  
*President & CEO, Broadspire*

*“Don't be afraid to take risks. Being outside your comfort zone will allow you to develop skills that you don't currently have. It will also give you the confidence to continue to develop as a leader.”*

Eileen Ramallo,  
*Executive Vice President of Specialty Services,  
Healthcare Solutions*

*“ Women require mentors and sponsors. Women leaders simply don’t have the backing necessary to inspire, propel and protect themselves on their journey through upper management. Internal sponsorship is essential to supporting your journey.”*

Nina Smith-Garmon,  
*Executive Vice President and General Manager of Mitchell  
International’s Casualty Solutions*

*“There’s always another option to consider or decision to be made. They may not be readily apparent—but they do exist. The key is to just say ‘no’ to the noise; this will allow you to see and hear clearly so you can move forward.”*

Michelle Weatherson,  
*Director, Claims Medical and Regulatory Division at State Compensation Insurance Fund (State Fund)*

“*Here are a couple of quotes that resonate with me. Be sure to find a quote that motivates you and change it as needed.*

*‘It is not enough to make it work; you need to make it happen.’*

*– Isaac Mizrahi*

*‘Success is sowing seeds that benefit others....You will not succeed unless you are willing to fail.’*

*- John C. Maxwell* ”

Nanette de la Torre,  
Vice President, Provider Relations at Zenith Insurance  
Company
